

Dear Parents and Carers,

Pupils in Year 7 use Lexia PowerUp Literacy – a fun computer-based program that has helped millions of students. The activities in PowerUp support and build on our classroom curriculum, with a focus on developing literacy and reading skills in three areas: word study, grammar and comprehension.

Lexia PowerUp works as follows:

- ❖ Your child begins PowerUp at a starting point that meets their needs, completing online activities throughout the week.
- ❖ Online activities include direct instruction and feedback as your child learns new skills.
- ❖ Progress and performance are reported, to enable teachers to provide help when this is needed.
- ❖ Paper and pencil activities are also used for practice – these may be done either in school or at home.

Pupils will be allocated time during their English lessons to work on Lexia PowerUp. We also ask that pupils spend at least one hour a week accessing the platform as part of their home learning.

There will be additional opportunities to access the platform in our library, before and after school, on an informal basis.

Yours sincerely,

Ms N Gilligan
Headteacher
